FULLY AUTOMATIC AUTOCLAVES EZ9 PLUS & EZ11 PLUS

- The newly designed, ergonomically friendly EZGlide door features a sleek modern look and effortless opening and closing
- Innovative EZView, Multi-Color Display offers real time cycle information that is easy to read, even from a distance. The EZView displays cycle parameters, temperature, and pressure in the chamber. During a cycle each stage is displayed with an active color wheel and text.
- Closed door drying, meaning the door remains closed through the dry cycle to maintain sterility and ensure efficient drying. A high efficiency air pump circulates filtered air through the chamber for fast drying. 0.2u HEPA filter (replaceable).

- Front or top water fill options: accessible EZFill front or top water fill option to enable easier filling of the reservoir.
- Optional printer documents a detailed history of each cycle.
- USB Port enables users to easily transfer cycle data via a flash drive to a PC.
- Comprehensive 2 year parts & labor warranty and 10 year chamber warranty.

LARGE CAPACITY AUTOMATIC AUTOCLAVE 3870EA

Our largest automatic table top autoclave. Features a closed door active drying system. Perfect for multi-doctor practices, clinics or surgery centers. 15"x 30" chamber accommodates longer instruments or a large number of small instruments. Capacity for 15 full size IMS cassettes. 2 year parts and labor warranty.

LARGE CAPACITY MANUAL AUTOCLAVE 3870M

Our largest manual table top autoclave. Perfect for multi-doctor practices, clinics or surgery centers. 15" x 30" chamber accommodates longer instruments or a large number of small instruments. Capacity for 15 full size IMS cassettes. 1 year parts and labor warranty.

FULLY AUTOMATIC AUTOCLAVES EZ9™ & EZ10™

With the simplicity of one touch design, all your sterilization and drying needs are fulfilled. The Tuttnauer fully automatic autoclaves fill, sterilize, exhaust and dry at the touch of a button. FORGET IT ONCE YOU SET IT.

THE ELARA11 PRE/POST - VACUUM CLASS B STERILIZER

With over 80 years of expertise in sterilization and infection control, Tuttnauer has always provided reliable and advanced technology. The Elara 11, our latest addition to the Tuttnauer pre & post vacuum autoclave family, continues this tradition. It is an ideal sterilization solution for any dental, outpatient or private clinic which needs the highest sterilization standards.

TUTTNAUER 2340M & 2540M MANUAL AUTOCLAVE

The Tuttnauer manual autoclave is designed to compliment any health care facility. The bright new easy to use panel was designed with the operator in mind. Our 2340M & 2540M autoclave will satisfy all of your sterilization needs without compromising on quality, safety or reliability.

VALUEKLAVE 1730

The Valueklave 1730 will satisfy all of your basic sterilization needs at an economical price. The compact size (7" chamber) makes it a perfect primary unit for small offices or a second autoclave for larger practices. The fast cycle time and heated drying delivers a quick turnaround for wrapped or unwrapped instruments. The simple controls and easy closing door make this unit a breeze to operate. High speed and reliability are built into every Valueklave 1730.

WATER DISTILLER

WATER DISTILLER MODEL 9000 STEAM DISTILLER

Tuttnauer offers a distiller that provides pure water that is 99% free of total dissolved solids. These distillers eliminate the inconvenience and expense of buying bottled water. Their ease of operation makes them ideal for any medical, dental or laboratory application.

MAXRAY MOBILE X-RAY

The MaxRay is wireless, handheld, and completely portable. There is no longer a need for designated X-ray machine rooms, make every room an X-ray room! Just point and shoot like you would with a camera and minimize your chances of taking a bad shot. It has repeatedly been shown, test after test, to be safer than conventional wall mount X-ray systems. At as low as 1/7 the power of conventional X-ray machines.

LIGHTWEIGHT

Weighs only 4.4 pounds

POWERFUL

60kV, 1mA

SAFE

ZERO leakage design makes MaxRay safe.

RECHARGEABLE

Take over 300 shots on one battery charge;
Compare to other systems that only take 100 per charge.

ECONOMICAL

One MaxRay unit does the work of multiple x-rays systems.
Improves your workflow in your office, its fast and convenient.

PRACTICAL

Handheld design allows operator to stay with the patient during procedure.

SIMPLE

Graphic LCD display: Large, easy to read, adjustable exposure

VERSATILE

The MaxRay Portable Handheld Unit can go with you anywhere. From one office to another!

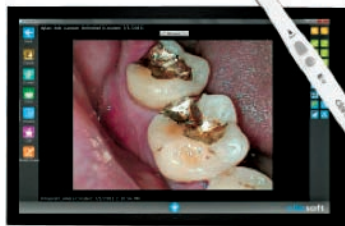

Includes: (1) MaxRay Handheld X-Ray, (1) Charger, & (1) Carrying Case

CAMERAS & SENSORS

CLARIS i4D INTRAORAL CAMERA

The award winning Claris i4D Intraoral Camera is the highest quality intraoral camera in the dental market. The Claris i4D boasts a unique high end lens, hand control focus, and compatibility with almost all dental imaging softwares. Simply plug into usb port. Precision optics with focal range of 1 mm-infinity for macro to full facial shots.

- Precision optics with focal range of 1 mm-infinity for macro to full facial shots
- Precision controlled sliding focus
- 8 white LED lights
- Ergonomic hand-piece that weighs only 2.4 oz
- Silicon capture button for image stability
- Integrates seamlessly with almost all dental imaging software
- Light ON/OFF capability available with special order

CLIO DI DIGITAL X-RAY SENSORS

Next Generation CMOS technology fiber optic sensors create 20+ actual line pairs per mm (26.3 theoretical line pairs per mm).

Without Clio soft Imaging Software, we can guarantee our digital dental x-ray images match up or surpass any competing system. **No Docking Station Necessary.** We make this promise based on feedback from actual dentists.

ULTRASONIC SCALER

VECTOR LIL' BEAVER 2.0 ULTRASONIC SCALER

- Convenient front mounted water control with large easy to adjust dial.
- Turbo boost, 2 position foot pedal - press lightly for dial regular dial power, press firmly for TURBO!
- Digital power adjustment with LED lit power display panel.
- Front mounted main power switch - shutting the unit off when left unattended just got a whole lot easier.
- Accepts both 25K (long) and 30K (short) ultrasonic inserts - no adapter or switch, unit automatically adjusts to accommodate any style, brand or frequency.
- Lies flat or mounts vertically in provided vertical mounting stand.

Oral Surgery System with Telescoping Arm (9028)

PC 7 Head, Scavenger Rubber Goods, "Y" Selector Valve Package & Telescoping Arm

PC7-C FLUSHMOUNT FLOWMETER

The PC7-C has been reconfigured to fit flush into today's cabinetry and provides the same time proven precision and dependability as our standard PC-7 unit.

DIMENSIONS - 4.25" H X 12.187" W X 4.687" D

- On/Off Control
- Oxygen Flush
- Micrometer Needle valves
- Minimum 30% O₂
- Dual Cascading Flowmeter Tubes
- Oxygen Fail-Safe
- Solid Gas Control Block
- O₂ Quick Connect
- NRB Check Valve
- Emergency Air Valve

VACUUMS & COMPRESSORS

ECO-VAC DRY VACUUMS

- Saves over 50% on electricity compared to regular pumps.
- Zero water usage saves on water & sewage
- Dry turbine section uses no oil.
- Eliminates maintenance costs and keeps the oil vapors from the environment.
- Very quiet operation at only 62 decibels.
- 5 Year Warranty

TECH WEST GOLDENVAC

Tech West's Dental Pumps have proven to be unsurpassed in technology and performance providing a vacuum system you can rely on for years to move without expensive repairs or maintenance. Tech West's new GoldenVac Stainless Steel Liquid Ring Vacuum Pump stands alone in superior design and performance. When comparing performance, the GoldenVac will clearly out perform all other vacuum pumps on the market by an amazing 20% due to the investment cast impeller which has a radical change in the geometric shape of the impeller vane. This dramatically improves the performance of the pump. All other manufactures of stainless steel pumps use a constant curve impeller design which does not have the same performance as the Tech West GoldenVac.

10 Year Warranty on Impeller & Silicon-Bronze Components, 5 Years on Motor Shaft & 3 Year on all other components.

TECH WEST OIL-LESS AIR COMPRESSORS

Tech West's Ultra Clean Oil-less Compressor supplies 100% oil-free air to the dental office environment. Tech West guarantees the clean, dry air you expect from a high performance drying system.

Through its smooth, vibration-free running at 72 DB, the Ultra Clean air compressor prevents the expensive and inconvenient need for a sound cover. All oil-less Tech West compressors are equipped with energy efficient heads, large cooling fans and Teflon-coated pistons and cylinders that provide years of dependable service.

The Ultra Clean features moisture indicators, epoxy-coated tanks and rubber-leveling feet, along with handles for easy lifting and installation. The Tech West Ultra Clean Oil-less compressor is offered in a variety of configurations from a single unit to dual or triple units. Tech West provides an extensive warranty program, as well as, upon request, full plumbing and electrical assistance. 2 Year Warranty.

AMALGAM SYSTEMS

The NXT Hg5 is the next generation in Amalgam Separation and the gold standard. Our products meet or exceed all state and federal requirements for the safe removal of mercury in the dental office. Our signature product – the NXT Hg5 comes in several sizes to fit your practice set up.

Tech west's ECO-STAR AMALGAM SEPARATOR systems are on the leading edge of technology in design and performance.

- Designed to serve up to 10 chairs
- Easy filtration of Amalgam, Mercury, Alloy and other waste particles
- Long filter life

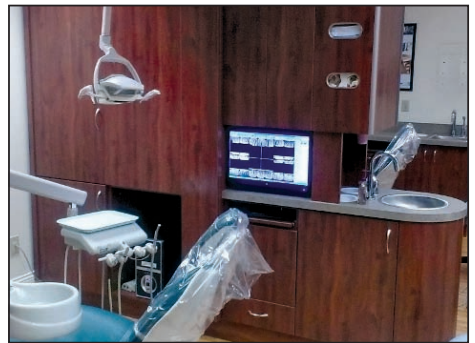

The ECO-Star® Amalgam Separator boasts a high containment capacity for extended service and pump life, cutting-edge cyclonic design with rapid velocity and waste capture.

CABINETRY

Create the practice of your dreams. We will work with you to generate an esthetically pleasing look and feel from the patient reception area to the consultation rooms, from the clinical support spaces, and from the staff lounge to your private office. By emphasizing comfort without sacrificing productivity, we will help you build a practice that projects a level of professionalism and success sure to instill patient confidence.

FEATURES:

All ILS modules can be customized to meet the needs of any practice

- Rounded steel base with leveling feet
- Removable access panel
- Standard water resistant counter top with radius corners
- Solid surface top
- PVC 3MM edging
- Metabox drawers
- Removable bottom for utility connections
- 800 laminate colors available (no up-charge)

5 year warranty on cabinets (*industry standard is one-year*)
Lifetime warranty on all hardware (*including hinges*)

PDQ Patriot is custom build delivery system.

- 3 handpiece automatic control
- 3-way air/water syringe
- Master on/off toggle with indicator
- Pressure adjustment for each handpiece
- Easy read pressure gauge
- Non-retracting water coolant, adjustment & purge
- Air coolant adjustment
- Asepsis handpiece tubing
- Stainless steel instrument tray, with non-slip pad
- Asepsis flex-arm with pneumatic brake
- Standard disc foot control
- Utility center assembly with master valves & regulators
- 7' umbilical tubing

Made in the USA and carries a 5 year warranty from date of purchase.

DELIVERY SYSTEMS

PATRIOT MODEL P-3354

- 3 HP Automatic Rear Delivery Slide-out Mount Control Head with Vacuum
- Side-mounted recessed control adjustments
- 3-way air/water syringe with quick change autoclavable tip
- Master on/off toggle with indicator
- Pressure adjustment for each handpiece
- Easy read pressure gauge
-
- Non-retracting water coolant, adjustment & purge
- Air coolant adjustment
- Asepsis handpiece tubing
- Vacuum canister with removable 1 7/8" screens
- Soft touch variable speed foot control
- Slide-out mount with 15* pivot left and right
- Utility center assembly (less housing and cover)
- 7' umbilical tubing

cabinet is shown for display and not included in price

PATRIOT MODEL P-4150

- 3 HP Automatic Duo Cart with Vacuum
- Asepsis designed selection for 3 handpieces
- Side-mounted control adjustments
- 3-way air/water syringe with quick change autoclavable tip
- Master on/off toggle with indicator
- Pressure adjustment for each handpiece
- Easy read pressure gauge
- Non-retracting water coolant, adjustment & purge
- Painted H-frame with height adjustment, 27" to 35"
- Vacuum canister with removable screens
- Asepsis handpiece tubing
- 1 autoclavable HVE and saliva ejector valve, tubing and holder
- Soft touch variable speed foot control
- Utility center assembly
- 7' umbilical tubing

SPIRIT 1700 CHAIR

The Spirit 1700 dental chair allows integration of today's technology at a budget-friendly price point.

The 1700 dental chair series combines innovative technology with quality components resulting in an easy to use, durable dental chair. Standard features such as embossed membrane touchpads for the doctor and assistant, a dual articulating headrest and swing away armrests coupled with the Spirit 1700's powerful hydraulic lift mechanism provide a quality seating experience.

Pelton & Crane offers an extensive selection of dental delivery units for various styles. Pelton & Crane's chair mounted delivery systems facilitate a balanced, ergonomic design and allow integration of today's modern dental equipment. Upgrade your operatory with the full line of Pelton & Crane LED lights. The Helios collection of operatory light offers superior illumination and decreased operating costs compared to traditional halogen lights. See better with the Helios.

The Narrow Back Advantage

The Spirit 1700 chair compliments the Narrow Back Advantage. The chair's narrow back rest allows the clinician to reach the optimal ergonomic position, and enables the doctor to work around the chair, not trapped underneath it.

Improved Ergonomic Access

The Spirit 1700's ability to reach a lower minimum height enables positioning flexibility for practitioners of any stature. Easily adjust the chair position so both you and your patients are comfortable.

Upholstery Choices

The 1700 chair offers a wide variety of upholstery options, including traditional and narrow backs, slings, colors, and exciting upholstery upgrades. The Plush Upholstery Upgrade includes Ultraleather, memory foam and seaming design for a stylish look and comfortable patient experience.

Technology Integration

With access to the innovative series of Helios LED lights and KaVo Electric motors, the 1700 package can meet a wide variety of clinicians' needs. Bring updated technology and equipment to your practice.

ALLIANCE 1258

- Rotating system design quickly and easily converts from left-to-right hand position
- Straight asepsis tubing for three handpieces
- Pre-wired with 8 conductor cable for accessory addition
- Floor utility center with regulators and shut-off valves
- Wet/dry foot control (with signal relay)
- Self-contained water system with city water/ bottled water selector
- Individual water coolant adjustment valves
- Handpiece Tubing flush system
- Contoured junction box

Alliance Delivery System Swing-Mount Delivery System

ALLIANCE 1250

- Standard package includes straight asepsis tubing for three handpieces
- Convenient brake release for flex arm
- Individual non-retracting water coolant adjustments
- Handpiece tubing purge system
- Wet/dry foot control (with signal relay)
- Self-contained water system with city water/ bottled water selector
- Handpiece oil collector
- Post-mount utility center with solids collector
- Individual water coolant adjustment valves
- Contoured junction box 35

Alliance Delivery System Post-Mount Delivery System

ENGLE 360 WITH COMFORT PLUS

- Engle 300 Dental Chair
- Engle 360 E300 Auto Control Delivery System
- Engle 360 Dental Light Delivery System
- Engle 360 Assistant's Vacuum Delivery System
- This package includes the optional Twin Stitch Upholstery at no additional cost to you.
- STANDARD FEATURES: E300 Control Head With 3 Auto Hand-Piece Holders, Individual Water Coolant Controls, etc.

ENGLE 320 WITH COMFORT PLUS

- Engle 300 Dental Chair
- Engle 320 Delivery System
- Engle 320 Dental Light System
- E300 Control Head With 3 Auto Hand-Piece Holders
- STANDARD FEATURES: 3-Way Air/ Water Syringe, Assistant's 3-Way Air/ Water Syringe, Master On/Off Switch, Flex Arm With Air Brake. Adjustable Swivel Tray, etc

CASCADE OVER THE PATIENT SYSTEM

- 2 Handpiece Automatic Control, Top Post Mount System
- Telescoping Vacuum Arm
- Operatory Light
- 40" Light Post Extension with Bushing
- Doctor's Operatory Stool
- Epic Operatory Chair, 110V
- Epic Chair Adapter

EPIC OPERATORY CHAIR

- Standard non-articulating headrest with contour cushion
- 4 manual chair movements and 4 programmable positions with the Eight function easy clean touch pad control
- Rotational lock / release
- High powered motors produce lifting capacities over 600 lbs
- Fixed or pivot style unit mount
- Cast Iron structural castings

ORAL SURGERY CHAIRS

OSIII ORAL SURGERY PATIENT CHAIR

ELEGANCE & DISTINCTION

Westar introduces affordable luxury. Always famous for reliability and efficiency, Westar adds beauty and comfort to the dental operator. The latest technology is combined with the skill of craftsmen to create hallmark products which move you to the forefront of modern operator design.

STANDARD FEATURES:

- Electro-mechanical cantilever system
- Foot control with two programmable preset positions and automatic exit (return)
- Wheelchair accessible double articulating headrest with lock-down for surgery feature
- Left & Right IV arms with one interchangeable pillow
- HiGlos powdercoat inside and out
- Thermal overload protection
- Synchronized seat and back tilt
- Low voltage
- Three year warranty
- Height to seat: 13" to 31"

ORTHODONTIC CHAIRS

BISCAYNE FIXED BASE

- Electro-mechanic back
- Foot control
- Double articulating headrest
- Steel base and backrest assembly
- Powder-coat baked finish
- Note: Recommended to be bolted to the floor

BISCAYNE

- Hydraulic base and back
- Adjustable backrest speed
- Adjustable base down speed
- Automatic return
- Foot control
- Double articulating headrest
- Steel base and backrest assembly
- Powder-coat baked finish

BISCAYNE E.L.

- Electro-mechanic base and back
- 1 Programmable pre-position
- Automatic return
- Foot control
- Double articulating headrest
- Armrests
- Steel base and backrest assembly
- Powder-coat baked finish
- Note: Recommended to be bolted to the floor

HELIOS 1800 LED DENTAL LIGHT

The Helios family of dental lights is designed to help you see – better. Our goal at Pelton & Crane is to keep your focus on the exam at hand, not your operatory light.

The Helios 1800 is the newest member of the Helios family of LED dental lights. Features like reflective technology and a crisp 3" x 6" light pattern mean enhanced performance over traditional halogen dental lights. This dental light also offers optimal efficiency to help you save energy and lifecycle costs. Leverage technology and enjoy increased performance from halogen lighting at a similar price point.

Reflective Technology

Work around your patient, not your light. Staff and instruments can be positioned where they need to be, as the reflected light of Helios 1800 minimizes shadowing. An extended depth of field provides flexibility to bring the light as close to or as far from the oral cavity as necessary, all while maintaining a crisp and consistent light pattern.

Precise Light Pattern

A crisp 3x6" light pattern is inherent to every Helios light. Consistency throughout the pattern eliminates the need to reposition light around hot spots common with halogen. Illumination occurs only where you need it to – in the oral cavity, not in your patients' eyes.

Efficient and Reliable

Long LED lifespan means no more time and cost associated with halogen bulb outages. The efficient Helios 1800 reduces energy consumption by about 70% from typical halogen dental lights, helping you go green and save on energy costs.

Ease of Use

Optimally placed dual touchpads mean easy control of Helios 1800. Doctor or assistant can easily adjust intensity or power with just the touch of a button. Triple axis motion delivers ultimate flexibility for any procedure.

LED LIGHTS

ENGLE LED LIGHTS

Perfect color at the perfect angle. These lights provide the ideal light pattern with minimal shadowing. Our no-cure filters easily slide up and down to work with photo-sensitive materials.

- Energy Efficient 9.82 Watts at 35,000 LUX
- Minimum LEDs for a Compact & Light Weight Unit
- No Infrared Light
- Sliding Curing Filter
- 3 Axis Light Head Rotation
- Focal Point: 3" x 6" at 27"
- Cool Comfort Operation
- 10+ Years of L.E.D. Life
- Low Power Consumption
- 5200 Kelvin Color Temperature
- Low: 15,000 Lux
- Medium: 24,000 Lux
- High: 35,000 Lux

SDS VIULUX LED II

SDS is shining a light on the dental industry. With lower energy consumption and longer life expectancy, our Viulux LED II operating light will not only illuminate smiles with brighter, cooler light but will also have you smiling with your savings. Using powerful Lumileds LEDs, Viulux II provides a precise light pattern with uniform intensity allowing for focused visibility and eliminating discomfort to patient's eyes. So go ahead – Open their mouths and say "ahhhh..." Our light is available post mounted, ceiling mounted, wall mounted, or as a retrofit upgrade. SDS is now providing doctors with the option of keeping their existing operatory units and light posts and simply swapping out the halogen light head for our Viulux LED II light head. Available for over 10 older halogen models, our light can provide doctors the technology of tomorrow at a price they can afford today.

LIGHT FEATURES

Activated via Motion Sensors
3 Axes of Rotation
Color Correct

Powder-coated Baked Finish
Bilateral Handles
Head Swivels 620°

DENTAL HANDPIECES

Vector handpieces are designed, engineered and built for performance. Compare power, torque, noise level and durability to handpieces at twice the price - Vector will not disappoint even the most discerning dental professional. At only 55db these handpieces lead the way in ultra-quiet air driven performance.

VELOCITY SERIES HIGHSPEEDS

The Velocity Line is designed and built for performance:

- High quality, German Made, Computer Balanced, Ceramic Bearing - ENDURO turbine!
- Titanium alloy shell for a light weight and durable long lasting professional look.
- Connect to Kavo Multiflex swivel couplers for maximum adaptability!

Available for Kavo Multiflex style connectors, NSK style connectors and for Adec / W & H RQ-24 or RQ-04 style connectors. Choose from Torque (Vx10) and Access Head (Vx9), Optic or Non-Optic, 4-port or 3-port water spray.

What's best for you Vx10 or Vx9?

F SERIES HIGHSPEEDS

F Series : Torque, Access head & Ultra Access Head available, 3-port water spray, push button autochuck bur release.

Available in Optic & Non Optic Versions With or Without Kavo Swivel:

F-Series - Small or Torque Head: Non-optic, push button autochuck, single port water spray, 4 hole standard backend.

SWIVEL COUPLERS

Compare to: Kavo 1390

5 hole fiber optic swivel

CURING LIGHTS

BONART ART L5 CORDLESS LED CURING LIGHT

The ART-L5 is ergonomically designed with a gun-shaped handle. It features 3 curing modes: Fast, Ramp, and Pulse. While the ART-L5 is a cordless device, the AC power adapter may be plugged directly into the handle allowing the ART-L5 to be used when battery power is low.

BONART ART L3 CORDLESS LED CURING LIGHT

The ART-L3 is a cordless, pen-shaped, LED curing light. This curing light does not use a glass fiber optic tip; instead, it contains an LED wand that resists breakage more than glass tips.

The ART-L3 may be used as a corded curing light by plugging the AC adapter directly into the bottom of the handle.

BONART L3 PRO CORDLESS LED CURING LIGHT

The ART-L3 PRO is a cordless, pen-shaped LED curing light. Unlike the original ART-L3, the ART-L3 PRO uses a glass fiber optic light guide and a red eye shield for minimal eye protection at the end of the tip (users are still strongly advised to use goggles to protect their eyes). Three modes of operation are available: Fast, Ramp, and Pulse.

The ART-L3 PRO may be used as a corded curing light by plugging the AC adapter directly into the bottom of the handle.

VECTOR LED TURBO VECTOR R&D

The New Vector R&D LED Turbo is one of the most powerful LED curing lights on the market today! With over 2,100mW/cm² of curing power this light ranks in the power range and curing time of lights costing double the price. With power like this you can cure up to 3mm in 3 seconds! Why pay over \$ 1,000 for a Demetron LE or a Vivadent Blue Phase when similar power is available at such a better value! The LED Turbo emits blue light primarily in the 440 to 490nm range which will polymerize all camphor quinine (CPQ) type materials, which is the most popular type of material on the market and is becoming the industry standard.

VECTOR LED-P PEN TYPE CORDLESS CURING LIGHT

The Vector LED-P curing light is a fast-curing LED light offered at an incredible value! Emits typical light output at about 1,400 mW/cm² needs only 5 seconds to cure most resin-based composites on the market. Incorporates a 5W blue LED producing 440 to 480nm to polymerize all camphorquinone (CQ) containing products.

SMALL LAB EQUIPMENT

BUFFALO DENTAL MODEL TRIMMER

- Classic Wet Model Trimmers Feature Outstanding Performance and Reliability
- Powerful and Fast Trimming Industry-leading extra-high torque motors and aggressive-cutting coarse Carborundum wheels cut fast and smooth saving time and money
- Solid Construction Classic, heavy construction and time-proven balanced direct-drive systems run quietly and can stay steady and trouble-free on the job for decades
- Enlarged Windows Larger work windows provide increased working area, improved vision, and full wheel use while resisting splashing
- Versatile Tables Calibrated work tables indicates model angles and can be easily tilted and repositioned to suit nearly every trimming requirement

BUFFALO DENTAL LATHE - FULLY ENCLOSED SANITARY LATHE

- A fully enclosed polishing lathe that contains grinding dust within a lighted, compact work cabinet.
- Multiple rubber-shielded hand entry ports and clear viewing window for improved access and vision.
- Easily attaches to dust collector via 1-1/2" OD port on back of cabinet.
- Simplified design features one-button operation to start lathe and illuminate cabinet.
- Powerful 1/2 HP, 3450 RPM motor with durable belt drive operates commercial-grade spindle for maximum torque.

OLSON PLASTER TRAP SYSTEM

The Disposable Plaster Trap is a convenient and sanitary means of reducing residue and sediment from plaster slurry water discharge. The Trap acts as a sediment tank that permits plaster residue to collect therein. When full, the disposable container is replaced with a new container. Hoses plug into and out of successive containers for swift and easy maintenance. Provided snap-caps fit onto the spout openings of the used container enclosing the contents and allowing for convenient disposal.

ULTRA SONIC CLEANERS

TUTTNAUER'S CLEAN & SIMPLE ULTRASONIC CLEANING SYSTEMS

Tuttnauer's Clean & Simple Ultrasonic Cleaning Systems are manufactured with only the highest quality components. These machines provide 60 kHz of quiet cleaning power which is less aggressive to instruments while still removing all surface contamination. The contemporary design and quiet operation comply any office environment. Clean & Simple Ultrasonic Systems are available in 2 sizes with a full selection of accessories to meet your specific needs. The 1 gallon system holds a standard selection of instruments or 2 half size cassettes. The 3 gallon holds 3 full size cassettes.

L&R ULTRASONICS EFFICA™ E1's

The Effica™ E1's contemporary design and quiet operation will enhance any instrument cleaning work station. The custom basket (included) provides better energy flow around instruments for superior cleaning results prior to sterilization. This newly designed Ultrasonic Cleaning System has a unique cover which operates like a hinged cover but is easily removable. It allows for closed-cover quiet operation even with the accessories inside. An enlarged drain line empties

the tank 65% faster than conventional drains. One gallon capacity tank. Digital preset timer. Accessories are available. Made in U.S.A. 2 year warranty.

P.D.Q.

Maintenance Inc.
Dental Division

P.D.Q. Maintenance, Inc. is a family owned independent dental equipment sales and service company that has been servicing Chicagoland dentists since 1980. In 2005 our service center and New and Used equipment showroom moved to our current location of Crystal Lake. In February of 2013 **Jeff Martell and Shawn Van Antwerp** purchased the company from the founder, and they strive to continue to provide the same great sales and service that our customers have grown accustomed to. At our service center our technicians complete repairs on autoclaves, handpieces and small equipment. At **P.D.Q. Maintenance Inc.**, we can help bring your dental practice from paper to reality by providing layout design, supplying equipment and preventative maintenance to keep your practice up and running. **P.D.Q. Maintenance, Inc.** can also assist if you are relocating your practice and need to disconnect and reconnect your equipment at a new location.
